EDUCATION

Liceo de Cagayan University

Bachelor of Science in Information Technology
Cum Laude

Cagayan De Oro City

Graduated 2026

Liceo de Cagayan University

Science Technology Engineering and Mathematics Strand
With High Academic Honors

Cagayan De Oro City

Graduated May 2022

EXPERIENCE

FREELANCE FULL STACK DEVELOPER

Independent Projects / Contract-Based

Cagayan de Oro City

2023 – present

- Developed full-stack web systems and dashboards for clinics, schools, and businesses, delivering secure, high-performance, user-focused applications.
- Managed end-to-end technical operations, including backend/database setup, troubleshooting, updates, documentation, and client coordination using modern web technologies.

PROJECTS

MACROCK LIMESTONE – Attendance & Payroll System

2026

Contract – Based

- Developed QR-based attendance tracking and automated payroll system processing 50+ daily workers with overtime calculations, quota management, and CSV reporting using React, TypeScript, Supabase, and Zustand

MACKY OIL & GAS – Point of Sale System

2026

Contract – Based

- Architected multi-branch POS system with dual authentication (QR/PIN for cashiers, email for admin), fuel transaction management, inventory tracking, and 11 admin modules using React 19, Vite 8, and Supabase

LDCU CLINIC – Medical & Dental Appointment System

2025 – 2026

OJT Project

- Built clinic management system with Google OAuth, role-based access, calendar-based appointment booking, automated email notifications, and admin panel using React, TypeScript, Supabase, and Zustand

LICEO EDTECH PLATFORM

2025 – 2026

OJT Project

- Developed educational platform with student/admin interfaces using React, TypeScript, shadcn/ui component library, and Framer Motion for interactive learning experiences

GOOGLE APPS SCRIPT – Attendance & Evaluation Systems

2025

- Created serverless QR-based attendance scanner and automated evaluation forms integrated with Google Sheets using Google Apps Script and HTML5

REACT TABULATION SYSTEMS

- Built event tabulation and real-time scoring system with animated transitions using React and Framer Motion

SKILLS

Web Development: HTML5, CSS, JavaScript, React, Redux, Next.js, TypeScript, PHP, Laravel

Backend & Databases: Node.js, Express.js, PostgreSQL, MySQL, Supabase, RESTful APIs

Other Tools: Google Apps Script, OpenAI API / GPT, Deployment, Git, Microsoft Power Bi

EXTRACURRICULAR ACTIVITIES

Sports Comm – LDCU SBO 2025 – 2026

Level 3 – TOPCIT Exam 2025

Vice President – Wizardry Society 2024 – 2025

Sports Comm – LDCU SBO 2023 – 2024

Participant – HACK4GOV 2024

Level 2 – TOPCIT Exam 2024
